

Advanced, Cosmetic and General Dentistry

dental implant clinic | orthodontic clinic | periodontal clinic | endodontic clinic | facial clinic

Enhance Remains OPEN

Yesterday, due to the increasing spread of COVID-19, the Prime Minister announced that there will be a month-long nationwide lockdown from Thursday 5th November until 2nd December. These new rules mean that all restaurants, cafés, bars, and pubs will be required to fully close to dine in customers. All non-essential retail shops will also be required to fully shut.

However, you can still attend your dental appointments.

Dental care is an essential service that is not required to close under new lockdown measures. The prime ministers message encouraged us to continue to attend routine appointments.

Rest assured that the measures we have in place ensure a safe environment for our patients and our team. Over the last few months, the clinic has invested in

- New safety equipment including Plasma air purifiers, air foggers, high volume aspiration, extra oral vacuum units, high volume air extraction units
- Advanced PPE including powered respirators, ffp3 filtered masks, full gowns, visors, screens and increased availability of sanitisers and temperature taking stations.
- New advanced cleaning protocols, new standard operating procedures, and extensive staff training

We will however be operating a locked door policy again to reduce the number of people in the practice at any one time.

Please download and read the practice attendance protocol attached to the email.

Please do not hesitate to contact the reception team or one of our treatment coordinators with any concerns.

We are here for you

Best wishes,

Lau Berraondo
